

# Body Boss

## Feature: Performance Data

Quickly and easily view the performance results of any of your players. Even watch how your players progress over their years of playing! Body Boss does the analysis for you so you don't have to work in spreadsheets for each player. Watch for trends in performance because it's critical to know not just about those who improve, but know about those who plateau or worse, decline.

## Getting Started

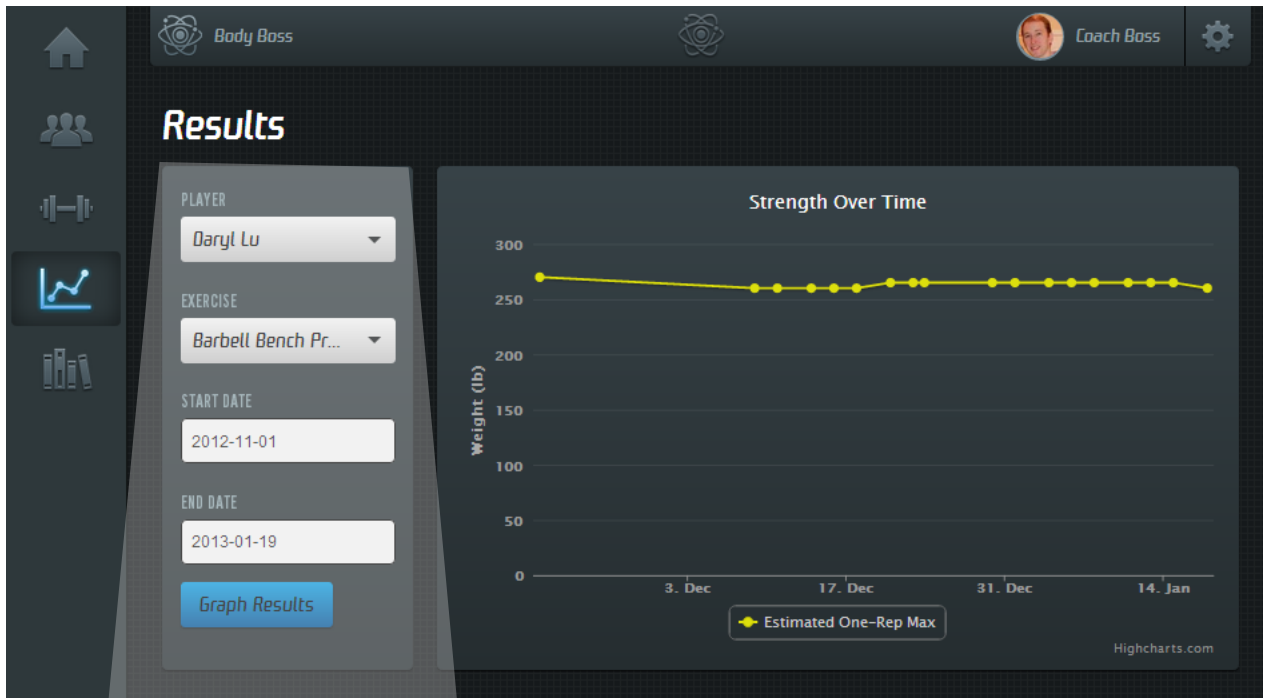

To view and access the performance graphs, you can find quick views for the Key Exercises under the Player Stats section of the Player Profile (click 'View'), or click on the Results icon in the navigation pane (  ).
